CARRIER OBJECTIVE

Dreaming to be a world-class Full Stack Developer and to work with a great team and keeping me updated with the recent technologies. Passionate to make the innovative stuff what can solve the real life problems.

PROJECTS

CoronaBD

📅 March 2020 - Present   📍 https://coronabd.xyz

- In this project, my team and me build an web application to give people current corona information which we build under our teacher supervision. Where we develop and deploy it on live.
- **Tools & Technology:** Laravel, RestAPI, MySQL, JS, Bootstrap.

Routine Creation System

📅 October 2020 – Present

○ github.com/Laravel23/routine-creation-system

- The aim of this project to solve University Routine Creation problem. Here we import an Course allocation Excel and generate Routine from it. And the generated routine has less error and overlap.
- **Tools & Technology:** Laravel, MongoDB, Vue.js, PhpSpreadSheet, Tailwind.

CoronaAPI

📅 March 2020 – April 2020   📍 github.com/bappi2097/coronabdAPI

- This is a simple API project where I use web scrapper for collecting corona information from different website like worldometers.info.
- **Tools & Technology:** Laravel, RestAPI, MySQL, Web Scrapper.

BooksQL

📅 Sept. 2020   📍 github.com/bappi2097/BooksQL

- In this application, I try to build a site which provide books and user can add, update books where I have used GraphQL and Vue.js. Here I deploy my backend on Heroku and frontend on Netlify.
- **Tools & Technology:** Laravel, GraphQL, MySQL, Tailwind, Vue.js, Light-House, VueApollo.

Twitter Clone

📅 October 2020   📍 github.com/bappi2097/twitter-clone

- In this project, I tried to clone twitter social media and some functionality of twitter Like User authentication, Post, Follow, Like, Dislike, Profile etc.
- **Tools & Technology:** Laravel, MongoDB, Tailwind.

EDUCATION

B.Sc. in Software Engineering
Daffodil International University
Current CGPA: 4.00/4.00

📅 May 2017-April 2020

Police Lines School & College (H.S.C)

Science Group
GPA: 5.00/5.00

📅 2013 - 2015   📍 Rangpur

ACHIVEMENT

Intra-Dept. Programming Contest
Runners Up on 2nd Intra-Dept. Programming Contest

Inter University Idea Contest
2nd Runners Up on Idea Contest

SKILLS

Laravel VueJs PHP JavaScript
Bootstrap Tailwind Sass MySql
MongoDB Python C/C++ Trello
Git/GitHub RestAPI Scrapper

SOFT SKILLS

Problem Solving Multitasking
Communication Team Work
